An ambush attack can happen anywhere, any time, and to any officer or group of officers. We are targeted in restaurants, in our cars, while on foot patrol, when responding to calls for service, and while protecting large scale events.

“Body can’t go where the mind hasn’t been”

It doesn't matter what **hardware** you have in your hand...  
It's the **software** in your head and heart that matters!

On average every **63 hours** a Police Officer is killed and taken too soon. Please help us and do your part in providing your agency with these life saving skills to prevent the senseless violence against our family.
