OFF DUTY SURVIVAL & PROFESSIONALISM

The Class Every Police Officer Working in Today's Society MUST Have!

We are losing officers every year by off duty ambush attacks, homicides, and moral/ethical career ending mistakes. This class will teach the student how to survive modern policing off duty against both physical attacks and proper decision making. Learn strategies to effectively manage stress, protect your family, and agency image / reputation. We also cover social media challenges.

Seating is limited so it is imperative that you pre-register as soon as possible by calling 417-233-1338 or sending an email to Info@shieldforce.org
